

Leyland[®] Trade

The Professional's Paint Since 1922

Linacre Mission Methodist Church, Merseyside

The building first opened its doors on the 30th September 1905 and the hall has remained a place of worship ever since, spanning most of the 20th century to the present day.

Contractor: Transform Support Services

Task: Following a fire in the building that left the walls, ceilings and woodwork covered in smoke residue, Transform Support Services began the job of redecorating the church knowing they had a challenging timescale of exactly one month to complete the work.

Product: A variety of Leyland products were applied including emulsions, primers, undercoats and gloss using a varied colour palette. The ornate and decorative plaster ceilings and panels have been brought back to life with the precise painting skills and patience of Transform Support Services.

Background: The team of six decorators and many cleaning operatives began the necessary task of preparing all of the smoke damaged surfaces by washing them down to remove all traces of contamination.

This in itself was a time consuming process, but an essential step. The first coat of emulsion was applied by airless spray to many areas to save time and then the detail of picking out intricate areas of the mouldings was completed by brush. The team achieved an outstanding finish and returned this place of worship back to its original beauty.
